Supervisor Bronner advised that we have guests from Hybrid Building Solutions and we would let them talk and then go on with our regular meeting. Mari Merkwa was the spokesperson for Hybrid. Based on the original estimate of \$566,241.00 for a 72' x 168' salt, sand barn the pricing fell \$5,000.00 from the previous estimate. They have partnered with Calhoun Super Structures the reason being their buildings are all hot-dip galvanized post fabrication both interior and exterior and due to the longevity of the buildings. It was a very detailed and informative conversation of their construction of the building that was given to the town board. They have been constructing these buildings for 26 years and it is a family oriented business. Pricing for the barn is good until March 25, 2025.

Also during the public portion of the meeting was a request made for an event calendar to be made on the town of Stark website for easier access for dates of meetings, dumpster days, etc. Regarding dumpster day, a question was asked if possible having a dumpster in town as possibly organizing a community clean up.
